WHAT'S NEW OR NOTABLE IN FY 2022?

Budget Placeholders

Similar to FY21, to make it easier to reconcile the PBCS budget load to target letters, the FY 2022 budget load includes placeholders to account for items that are typically adjustments within the target letters.

On the budget input screen, you will see the following placeholder categories: Revenue Adjustments, Permanent Cut, Reinstate FY21 Temporary Cut, Program Changes-Salary Maintenance, and All Other Expense Impacts.

		Actual	Ending Budget	End Perm Budget	Loaded Budget
		YearTotal	YearTotal	YearTotal	▶ YearTotal
		FY21	FY21	FY21	FY22
Revenue Adjustments	R00000				0
4500 - Sales & Services of Educ Depts	R00000		0	0	
4999 - Total Revenue	▲ Total Reference		0	0	
	R00000		0	0	0
Permanent Cut	R00000				0
Reinstate FY21 Temporary Cut	R00000				0
Program Changes - Salary Maintenance	R00000				0
All Other Expense Impacts	R00000				0
5000 - Medical Faculty RFT Regular Earnings	R00000	47,614	90,098	90,098	

The All Other Expense Impacts placeholder category includes less frequent Target Letter adjustments that cannot be pre-seeded due to their manual nature:

- If a portion of any Schedule 2 cost recovery is cost-recovered compensation
- Union salary increases
- Schedule 1 Transfers that represent only a portion of a department's budget moving to another RC
- Annualization of permanent BMRs
- Schedule 5 Program Changes
- Fringe benefit rate changes on certain compensation changes
- Certain exceptions regarding financial aid (base adjustments, non-76xx subcodes used in 07xxx purpose accounts that are seeded at a different rate than financial aid, 76xx

subcodes used in non-07xxx accounts which will be seeded according to any tuition rate increase, approved 07xxx aid budgets that require different tuition rate increases based on level and residency.

If applicable to your RC, placeholders have been pre-seeded to the following department IDs:

RC		Department
01		01010
03		01082
05		06100
06		11010
10		10010

89		02040
91		79010
92		01042
93		02090
94		27010

For budget submission purposes in your submission form, you will be required to move the placeholder amounts to a valid subcode or valid subcodes within any department(s) in your RC. Once the placeholder amounts are moved, **please leave the FY22 Loaded Budget placeholder cell blank (i.e., do not put a zero in the cell)**. If you do not move the placeholder amounts, we will move the balances to subcode 8100 (Miscellaneous Expense) in the indicated department when we finalize your submission.

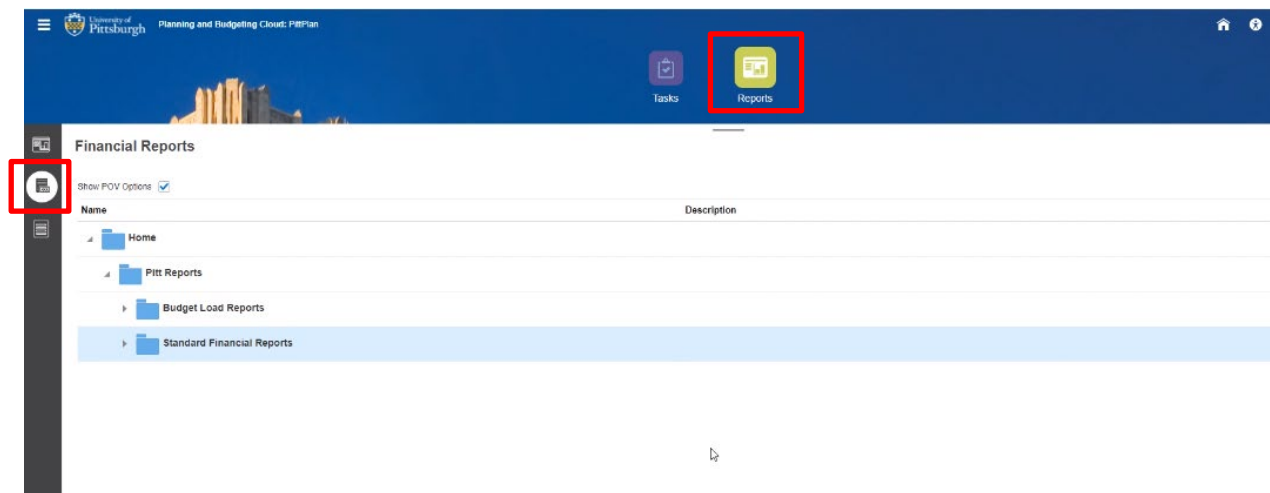

If, after the budget submission is finalized, you would like to reallocate those amounts elsewhere in your Entity 02 accounts, you can submit a BMR during the fiscal year. Refer to the

[PBCS Budget Submission User Guide](#) for additional information about the placeholders and instructions on running reports in PBCS.

Running Reports

When running reports in PBCS, please note that an extra step is required. The Reports icon on the home screen will take you to the list of reports available to assist you with your budget submission.

Please click on the second icon on the left to access the Financial Reports.

TARGET BUDGET EXHIBITS AND SCHEDULES

The FY 2022 budget guidelines represent the compilation of budgetary decisions for FY 2022 as they affect each RC. The budget guidelines contain five components:

Exhibit A - *Calculation of Approved Operating Expenditure Budget for FY 2022*

Exhibit B - *Calculation of Approved Operating Revenue Budget*

Exhibit C - *FY 2022 Overhead Rates*

Exhibit D - *FY 2022 Debt Service Budgets*

Exhibit E - *FY 2022 Financial Aid Budgets*

Exhibit A and Schedules 1 - 5

An RC's operating expenditure budget is generally that portion of its budget that is accounted for in Entity 02 (subcode range 5000 through 9999) and is funded from general University sources of revenue (commonly referred to as "hard money"). Expenditures related to non-auxiliary activities and to auxiliary enterprises are not included in the RC's operating expenditure budget as presented in Exhibit A. Financial aid accounts (purposes 07####) are also excluded from Exhibit A because they are allocated on Exhibit E.

The starting point for the calculation of the approved operating expenditure budget for FY 2022 is the approved operating expenditure budget for FY 2021 (as of July 1, 2020) as submitted by the RC in September 2020. This budget, and all information related to the budget calculation, is provided by the following categories:

- faculty salary (excluding fringe benefits)
- non-faculty salary (excluding fringe benefits)
- fringe benefits calculated on faculty and non-faculty salaries
- GSA/TA/TF/GSR salary (excluding fringe benefits)
- fringe benefits calculated on GSA/TA/TF/GSR salaries
- other costs (excluding cost recovery)
- cost recovery

Student salaries recorded in subcodes 5700 through 5785 are included in non-faculty salaries.

Schedule 1 of Exhibit A details changes that occurred in fiscal year 2021 to an RC's budget from the transfer of departments, or from permanent Budget Modification Requests (BMRs). In cases where a permanent BMR created partial year funding, additional amounts to provide funding for a full year are given as annualization of permanent BMRs. Details of annualizations are also presented in Schedule 1 of Exhibit A.

Details of fully and partially cost recovered accounts and certain income-based accounts are found in Schedule 2 of Exhibit A. Fully cost recovered accounts, the recovered portion of partially cost recovered accounts, and certain income-based accounts are removed from the RC's budget prior to calculating increases or other adjustments. As in previous years, increased costs in these accounts for fiscal year 2022 will not be centrally funded; these increases should be funded through increased income and/or cost recovery.

Schedule 3 of Exhibit A provides for required reductions or reallocations of the budget.

Schedule 4 of Exhibit A provides a calculation of the compensation increase and fringe benefit adjustment. The following items should be noted:

- The details to the increase of the adjusted salary budget for staff, faculty, GSAs, GSRs, TAs, and TFs (total percentage increase pool and percentage increases for satisfactory performance and merit, market, and equity) are outlined in the cover letter that accompanies your budget materials.
- Union increases are based on collective bargaining agreements.
- Fringe benefits have been included in the target budget at the approved FY 2022 rates. Fringe benefits will be budgeted on salaries using various rates depending upon employee classification. The same rates should be used whether the budgets are for regular salaries or overload salaries. A table detailing the FY 2022 approved rates can be found in the Other Resources section of this manual.
- Funding has been adjusted on Schedule 4 to reflect the changes in fringe benefit rates from the FY 2021 rates. Therefore, any movement of salary dollars requires a movement of fringes at the applicable FY 2022 rate(s). Additional fringes will not be centrally funded for movement between salary subcodes.

Schedule 5 of Exhibit A details any program changes that affect the RC that have been approved through the budget process.

The result of the above calculations is the approved operating expenditure budget for FY 2022 for the RC, excluding fully and partially cost recovered accounts and certain income-based accounts. To arrive at the total approved operating expenditure budget for FY 2022, fully and partially cost recovered accounts and certain income-based accounts are added back at the FY 2021 budgeted amounts, plus any permanent BMRs and/or Transfers on Schedule 1 processed during the year to such accounts.

The approved operating expenditure budget for FY 2022 is calculated at the RC level. When the RC head receives the FY 2022 target budget guidelines, he/she must distribute the approved funding to the departments within the RC. Operating expenditure budget data for each department will be collected on the data entry screens of PBCS.

Exhibit B

The approved operating expenditure budget for an RC assumes that a consistent level of operating revenues associated with that RC will be achieved. These operating revenues, accounted for in Entity 02 (subcode range 4000 through 4999) of the PRISM general ledger accounts, are detailed in Exhibit B. Permanent BMRs have been incorporated in the amounts on Exhibit B.

The operating revenue budget represents the amount of revenue that must be achieved in FY 2022 to support the budgeted expenditures. If an RC budgets more revenue than this amount, the RC can increase its expenditure budget by the incremental amount. Likewise, if the RC budgets less revenue than this amount, the RC must decrease its expenditure budget by a corresponding amount. Operating revenue budget data will be collected on the revenue portion of the data entry screens.

Exhibit C

Some RCs have auxiliary operations and / or non-auxiliary activities, which are accounted for in Entity 03 of the PRISM general ledger accounts. Exhibit C lists the required overhead rate to be applied to auxiliary/non-auxiliary accounts when calculating total expenditure budgets. The expenditure budgets must include the appropriate amount of overhead in subcode 8302 *Distributed University Overhead*. As expenditure budgets are entered and saved, the system will automatically calculate overhead by applying the rate found on Exhibit C to Modified Total Direct costs (MTDC) and enter that amount in subcode 8302. A listing of the subcodes excluded from MTDC to determine overhead can be found in the Other Resources section of this user guide.

To manually calculate overhead for an account, start with total expenses (before overhead) and subtract subcodes excluded from MTDC. Multiply this net result by the applicable overhead rate from Exhibit C. This is the amount of overhead that should be budgeted in subcode 8302.

Exhibit D

For RCs required to include debt service in their budgets, the appropriate entity, department, and amounts are provided in Exhibit D. **You may not enter a budget in subcode 8210 unless it is included on Exhibit D.**

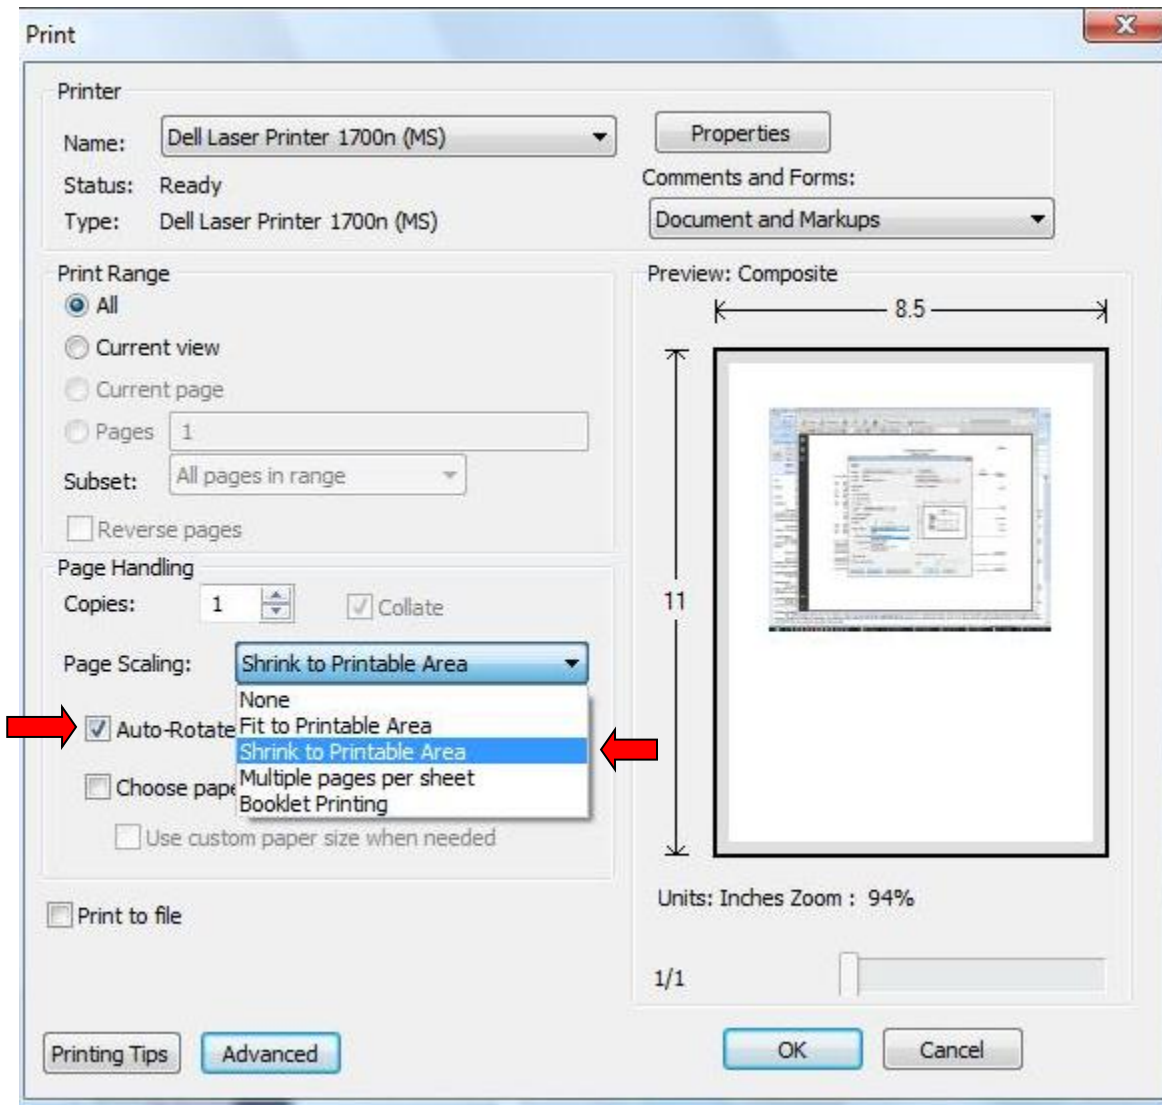

Exhibit E

Exhibit E provides Undergraduate and Graduate Financial Aid budgets by RC. These budgets have been allocated to the RCs by the Office of the Provost or by the Office of the Senior Vice Chancellor for the Health Sciences, as applicable. Based on this exhibit, each RC should determine the allocation of its financial aid budget by account and complete the separate financial aid data entry tab on the Entity 02 screen. Please note that these budgets may not be reclassified between Undergraduate and Graduate.

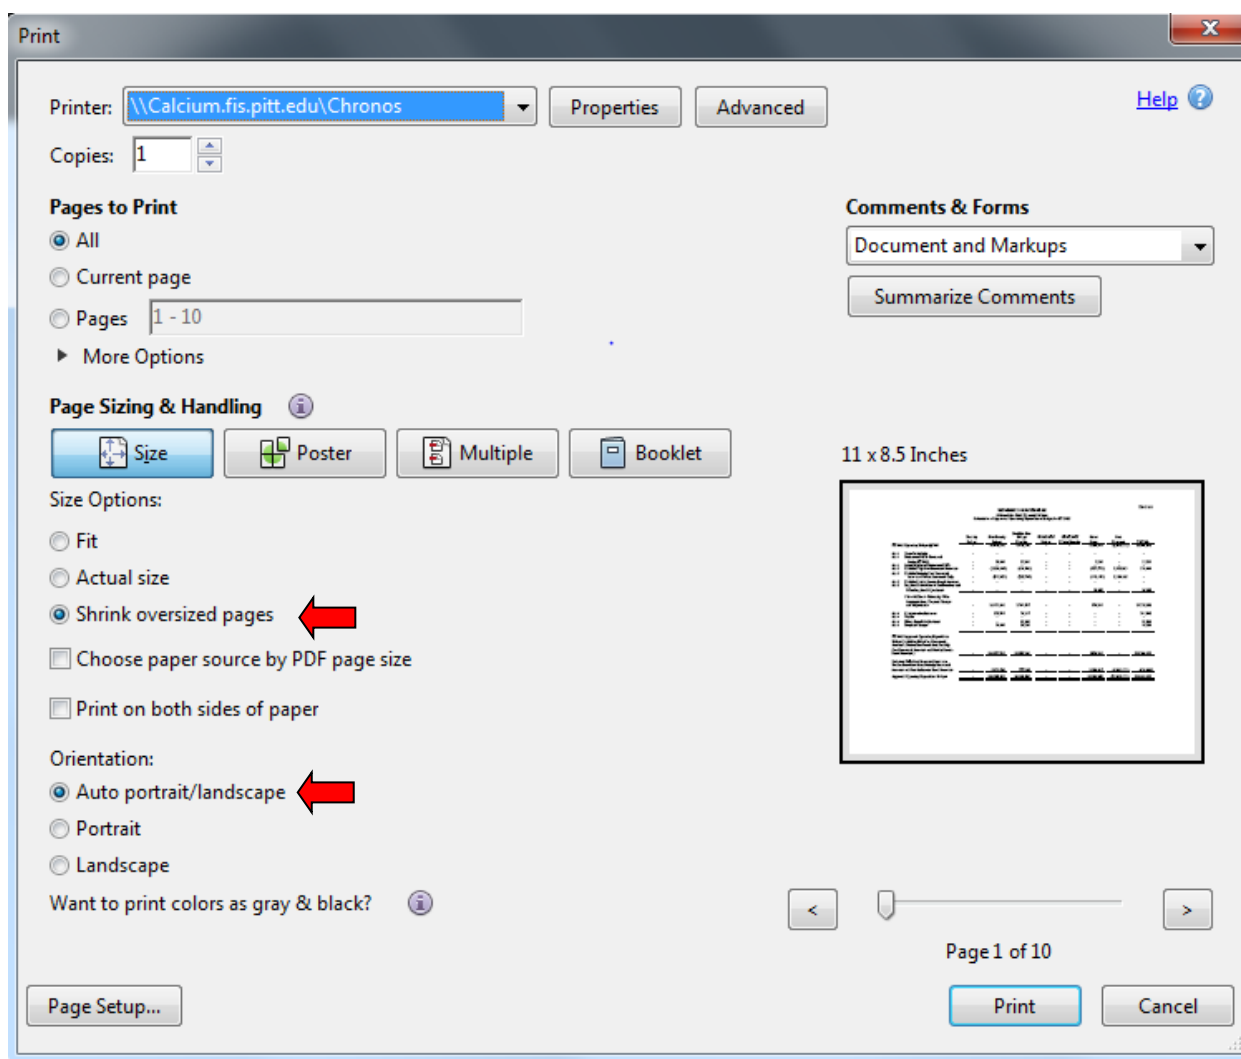

These financial aid budgets are not part of the Approved Operating Expenditure Budget on Exhibit A. This is a separate targeted amount. Therefore, RCs should not incorporate the budget of these accounts in their Reconciliation. **Final Approvers should, however, ensure the financial aid budget to be submitted equals (or reconciles) to the target budget shown on Exhibit E.**

Note on Printing Target Budget Exhibits

Your target budget exhibits may be printed directly to your printer, and all pages should print in the format appearing on your screen. One reason the print copy may appear differently is because your printer setting is not set to the proper scaling. Another reason may be that the auto-rotate/orientation setting needs to be changed. If you are having difficulty, check to insure that “Shrink to Printable Area” or “Shrink oversized pages” and “Auto-Rotate” or “Auto portrait/landscape” are selected.

Or:

GENERAL ACCOUNTING RESOURCES

Several additional resources to assist with the budget load are provided on the [General Accounting website](#):
